Farm Direct Flowers-Supplies

2025 V1-

Wilmington, MA 1-800-336-1080, Cranston, RI 1-800-955-4300,
Bedford, NH 1-800-969-2833, East Patchogue, NY 1-631-289-5294

Bay state is proud to share our 2025 Basic Supply Catalog with you. Our employees strive everyday to live up to our mission to provide superior quality products and services at the greatest value. We are confident that our partnership with the most respected suppliers in the floral industry will enhance our ability to serve you.

While we are aware that our success is due in part to our superior product lines, our ability to adapt to the changing markets, our willingness to implement new methods and technologies and of course, just plain old hard work, we are keenly aware that no business can continue to enjoy success without one very important ingredient... it's customers.

No one is more important to us than our customers, and as a result, we are constantly looking for new ways in which to better serve you. Whether it's through the new catalog or our new on-line ordering platform www.baystateflowers.com .

Thank you for your trust and confidence. It is a privilege to be able to serve your business.

*Yours truly,
Stephen Dabrieo
President*

DESIGN

MYTH

Foam needs to float imprint up.

FACT

Imprint up, or imprint down, OASIS® Floral Foam will saturate either way.

MYTH

You must "foam in" the entire container.

FACT

No way! Not every inch of your container needs to be filled with foam. Use varying stem lengths to avoid cutting that extra piece. Make sure water reaches your stems though!

MYTH

Foam is too hard to design with.

FACT

Using foam is easy when you know the basics. You can boost your foam skills with our SKILLS SERIES.

[LEARN MORE](#)

MYTH

Designing in floral foam takes too long.

FACT

With floral foam you can design days ahead of events, saving you critical time when you need it most.

MYTH

Foam is expensive.

FACT

Did you know when you use OASIS® Midnight Floral Foam the savings in stems can actually cover the cost of the foam?

ENVIRONMENTAL

MYTH

Smithers-Oasis lies about degradable foam.

FACT

Smithers-Oasis bases its information on scientific studies and official classifications.

MYTH

Floral Foam doesn't degrade.

FACT

Many don't but OASIS® Floral Foam Maxlife does!

MYTH

Floral Foam isn't sustainable.

FACT

Actually, OASIS® Floral Foam Maxlife* is a more sustainable option over other classic floral foams.

MYTH

OASIS® Floral Foam is bad for the environment.

FACT

Calling all earth-lovers! OASIS® Floral Foam Maxlife* is a great option for those seeking a better-for-the-environment foam.

MYTH

Floral Foam has been banned.

FACT

Absolutely not! Designers continue to trust in floral foam to help them make floral design dreams come true! Looking for a more sustainable option?

[LEARN MORE](#)

*This product degrades by 75% within 1 year in anaerobic environment (ASTM D5511).

PHYSICAL PROPERTIES

MYTH

Floral Foam is bad if it turns brown.

FACT

When foam is exposed to UV light the color could change. No worries through, the foam is still effective.

MYTH

Floral Foam is all the same.

FACT

Not all floral foam is created equal. Foam is more science than art, which we have been perfecting since 1954. Our high-quality foam passes rigorous testing before making it to your arrangement.

MYTH

Some flowers can't be used in floral foam.

FACT

OASIS® Floral Foam is formulated to maximize flower life for all flowers. So go ahead, flower until your hearts content.

MYTH

OASIS® Floral Foam doesn't hold much water.

FACT

Each brick of OASIS® Floral Foam can hold about two quarts of water.

MYTH

Floral Foam texture is inconsistent.

FACT

Our middle name should have been reliable, because that's what you get with OASIS® Floral Foam. Our foam undergoes over 10 different quality checks before heading out the door.

SAFETY/ HEALTH

MYTH

Floral Foam is carcinogenic.

FACT

OASIS® Floral Foam is safe and not considered a health or physical hazard based on GHS classification.

MYTH

OASIS® Floral Foam is toxic.

FACT

OASIS® Floral Foam is safe and not considered a health or physical hazard based on GHS classification.

MYTH

You need to wear gloves when using OASIS® Floral Foam.

FACT

OASIS® Floral Foam is not considered a skin irritant, therefore no gloves are needed. Of course, if wearing gloves is your thing, then go for it.

MYTH

OASIS® Floral Foam is dangerous.

FACT

Floral foam is an article, which is generally defined as a manufactured item that does not release or result in exposure to a hazardous chemical under normal conditions of use.

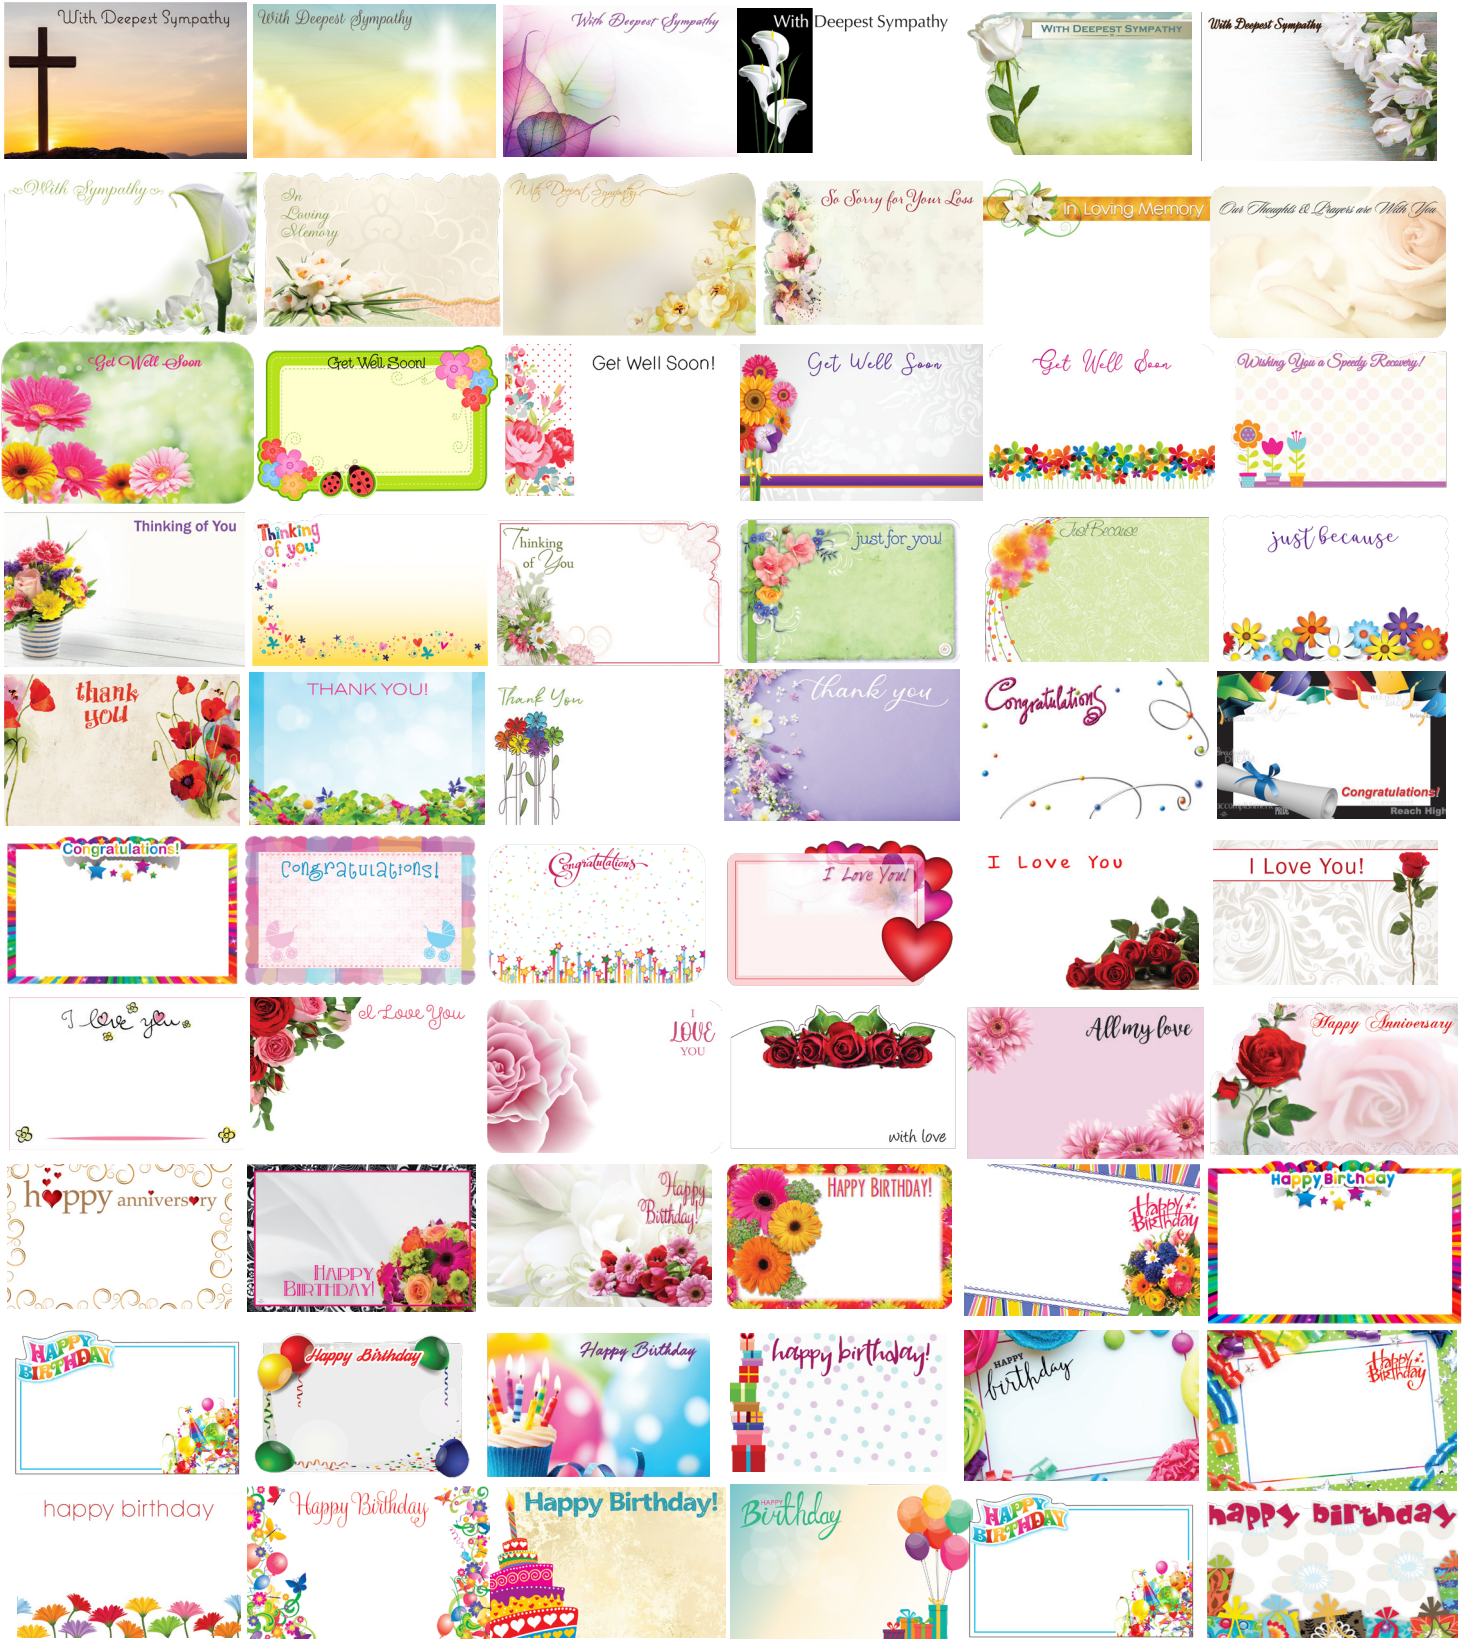

MYTH

OASIS® Floral Foam impacts the air in your shop.

FACT

Storage or use of OASIS® Floral Foam does not require additional ventilation in your shop.
