

To us, floral foam isn't an art, it's a science! A science we have been perfecting since 1954. Count on OASIS® Floral Foam Maxlife to support you with ultra-consistent floral foam made for maximum flower life.

- Keeps stems perfectly placed
- Maximizes Flower Life
- Individual attributes based on foam type

- Scientifically formulated to maximize flower hydration
- Meticulously Researched, Consistently Crafted
- This product degrades by 75% within 1 year in an anaerobic environment (ASTM D5511)

OASIS® Floral Foam Maxlife

- Each 9" x 4" x 3" brick is scored at 1/2 and 1/3 for accurate cutting and less waste
- To soak, free-float brick of floral foam until fully saturated
- Saturates completely each and every time, with each brick holding up two quarts of water

OASIS® Standard Floral Foam Maxlife

MEDIUM DENSITY

- Perfect for everyday designs with roses, carnations, poms, liatris, etc.

OASIS® Midnight Floral Foam

- Dry gray foam transforms to rich black when soaked, creating the perfect canvas for any design from traditional to bold, OASIS® Midnight fits any style
- Create finished traditional looks with up to 25% fewer materials compared to green floral foam
- Leave OASIS® Midnight foam visible to create minimalist floral designs that are both on-trend and perfect for the modern consumer
- Take the guess work out of adding water to arrangements by hydrating designs when the vibrant black foam fades to gray
- Made with premium Maxlife technology, flowers can live up to 50% longer compared to other foam
- Easy to work with, this foam has a density and holding power that is similar to standard green floral foam
